Hi Kenn,

Always a pleasure seeing you! Perhaps we can follow up on a few things:

1. Apologies, we had a run on LJ100®, and did not have any for the show!

But you may order with the 40% off product code is **Friends & Family** for www.nhrscience.com

2. Thanks so much for introducing me to PharmaCare.

Just to confirm, the lady we meet with Carl Gagnon was Nahrain Lozusic?

It was a great intro, and I'm putting together a follow up email.

I think a Zoom or Teams meeting would be the best next step.

Maybe you and I can chat about re-engaging with them to really capture their attention.

So, a carefully crafted email with e-book attachments might be helpful, as well as a corporate ppt. presentation, see attached? [needs updating with Bergacyn™]

3. Lastly, we should chat about the ParActin® trademark issue. I think Omid should be contacting you soon.

Thanks!

Best regards,

Hame
